SUMMARY

I am a front-end developer with a good problem-solving skills and proven experience in creating and designing software in a test-driven environment.

EXPERIENCE

Front-End Developer
Omnibiz Africa   **October 2021 - Present, Lagos Nigeria**

· Currently with the Distributor Management System (DMS) team, building a general and wholesome platform where distributors can manage and keep track of proper inventory of their stocks
· Collaborating with other Front-end Developers in the development team and function closely with Back-end developers to create a functional working application for users.
· Participated in an agile, collaborative environment across software architecture, understanding both front-end and back-end processes, while specializing in the front-end.
· Contributed closely with visual designers to deliver wireframes from conception to implementation, and Back-end developers to ensure tested and production-ready UI code.
· Wrote code for user interfaces, including interactions, responsive layouts, and styling to produce optimum user experience.

Front-End Developer
Connectin Skillz   **January 2021 - September 2021, Brighton, United Kingdom**

· Bring beautiful interfaces and prototypes to life
· Work on developing a solid edtech MVP platform, where individuals can come and browse through paid courses to learn software development
· Improve sales using feature experimentation, test, and analytical measurement.
· Upgrade the customer-facing application to a more recent technology stack. Mentors and contributes to product development and design iterations.
